## EXPLORING WONDER AND NEW HORIZONS

36-48 months

A photograph of a man and a young boy sitting at a table, engaged in a coloring activity. The man, wearing a blue t-shirt, is smiling and pointing at a drawing on the paper with a red crayon. The boy, wearing a blue and white striped shirt, is focused on coloring. Several other children are partially visible around the table, also holding crayons. The background is a bright, colorful classroom setting.

Educators understand that the cognitive, language, physical and social skills of most rapidly developing three-year-olds are significantly unique from other ages.

**Are you struggling with adapting a Pre-K program to meet the developmental needs of three-year-olds?**

We understand this can be challenging. ***Frog Street Threes*** is a developmentally appropriate curriculum designed for children 36-48 months old.

**Why is a program specifically for three-year-olds important?**

Three-year-olds are not toddlers and they are not ready for a rigorous Pre-K program. They have unique characteristics, needs and developmental milestones.

**Are you a current user of *Frog Street Pre-K, Frog Street Toddler and/or Frog Street Infant Curriculum*?**

***Frog Street Threes*** completes our continuity of instruction from birth to five. All four programs were written by the same expert author, Dr. Pam Schiller, and the scope and sequences are completely aligned.

## FROG STREET'S VISION

is to change the next generation of children by creating developmentally appropriate, intentional curriculum and equipping early childhood educators with best-in-class professional learning. We realize this is a lofty vision, but with you as our partner, we believe it is possible!

Three-year-olds are special! They are transitioning from parallel play to interactive play, and their language capacity is blossoming. They are becoming much more mobile, and they are learning to show genuine affection and concern for their peers.

*Frog Street Threes* meets the specific needs of three-year-olds in key areas of development:
